

CERTIFYING LOGS ON THE IN-CAB TABLET AND/OR YOUR HOME PC

Tablet You must certify logs DAILY, the first change of status after midnight.

- Displays a prompt to certify your log for the date displayed
- You must enter your password when certifying your logs
- Logs cannot be certified if there are pending proposed edits or Unidentified Driver events

Q: If I am off duty for several days in a row, do I have to certify each day?

A: If you have been continuously off duty for multiple days, display the log for the last (most recent) day on which you were off duty, and tap the Certify button. You will be prompted to certify the range of dates encompassed by that off duty event.

Q: What if I need to certify logs that are not available on the mobile device?

A: You will only be able to certify the previous 7 or 14 days on the mobile device, depending on your driver type. You can certify older logs through the ELD Driver Portal (below).
